

## Abortion Referrals - Indiana & Kentucky Patients

Due to a U.S. Supreme Court ruling, laws are in effect that restrict abortion access in some states, but abortion is legal in other states. The Supreme Court ruling does NOT mean that abortion is illegal nationwide. It is still legal to travel to states where abortion is legal.

Laws and restrictions are constantly changing. It is recommended that you go to one of the following websites to find the most up-to-date information on where you can get abortion care. It is important to call the health center where you would like to be seen to ensure that you are aware of all costs and restrictions before you travel.
