

The Louisiana Faith Leader Advocacy Council (LFLAC)

of Planned Parenthood Gulf Coast

MISSION

The Louisiana Faith Leader Advocacy Council (LFLAC) of Planned Parenthood Gulf Coast (PPGC) stands up, speaks out, and supports all residents of Louisiana in need of compassion and care. Comprised of members from diverse religious traditions, LFLAC is united by a shared mission of demonstrating fierce love and compassionate advocacy to create a more just, equitable, and healthy Louisiana.

ABOUT LFLAC

We invite you to join our sacred mission of creating a safe space to honor our diversity and support our differences as they lead us to a unified understanding of our work toward building a more just, equitable, and healthy Louisiana. This initiative is led by PPGC in Louisiana. PPGC provides expert, nonjudgmental sexual and reproductive health care, education, and advocacy, operating two health centers in Louisiana – one in New Orleans and one in Baton Rouge – and six in the greater-Houston area.

PARTICIPATION:

We live out our religious values in LFLAC by:

- **Developing working relationships** between congregations and legislators to better advocate for our communities, with support from PPGC.
- **Supporting clergy council and their congregations** by providing training on education, health care, and advocacy resources available through PPGC.
- **Empowering our lay leaders, neighbors, and Planned Parenthood patients** to join our shared leadership and speak out in support of Planned Parenthood's mission of reproductive freedom for all.
- **Honoring important moments and milestones** through rituals reflecting diverse traditions and values.
- **Gathering in conversation in a spirit of love and productivity** as we model how to stay in relationship, even when we may disagree.
- **Participating quarterly**, whether directly or via representative, in LFLAC efforts throughout the year.
