About your Telehealth visit

- You have scheduled a telephone appointment. You will meet with a PPNorCal provider over the phone. You do not need to go to a health center for the appointment.
- Before you speak with the provider, you will receive a phone call from a blocked or unknown number up to ten minutes before or after your scheduled appointment time to complete registration and check-in.
- If we are unable to reach you after two attempts, we will need to reschedule your appointment.
- Please be in a private and quiet location with a good telephone connection.
- After your telephone appointment, you may need to go to a PPNorCal Health Center for a blood pressure check, medications, or to leave specimens for lab testing. If so, we will help find a time that works with your schedule.
