

Planned Parenthood of Illinois

HERE FOR THOSE WHO NEED US NO MATTER WHAT!

2021-2022 ANNUAL REPORT

Dear Friend -

This year's Annual Report covers Planned Parenthood of Illinois' (PPIL) challenges and accomplishments from July 1, 2021 to June 30, 2022. But the most significant obstacles for our work now and in the foreseeable future came on June 24, 2022, when the Supreme Court overruled a half-century of settled constitutional law with the *Dobbs* decision. **For the first time in American history, the Court took away a fundamental freedom. Millions of people found themselves suddenly unable to access abortion health care.**

For months before *Dobbs* was decided, PPIL had planned for the possibility—however outrageous and unfair—that the radical conservative members of the Court would take this unprecedented step. We realized that our responsibility to care for our patients, no matter what, might face the need to transform into regional leadership to care for patients. Thus, when the *Dobbs* decision compelled our Wisconsin affiliate, PPWI, to stop providing abortion care in that state, PPIL and PPWI leadership and staff worked collaboratively to create innovative patient-centered care for Wisconsin patients at the PPIL Waukegan Health Center. This is but one example of how we are working together with others, across state lines, to benefit patients no matter where they live.

Similarly, we began and have continued to execute our ambitious Resolve campaign, the largest multi-year campaign in our history. The campaign proceeds have helped us build capacity at our health centers, build staff capacity to serve growing patient needs more effectively and efficiently, invest in digital innovations and telehealth services, and strengthen partnerships with other affiliates and reproductive services organizations. With the support and assistance of donors and friends and the leadership and resilience of all our dedicated staff, PPIL is rising to meet the challenge of our times: to be a health care haven and leader in the Midwest.

We could not meet this moment without you. Your support, your donations, your advocacy and activism, and your ongoing engagement make all this work possible. Because of you, PPIL is able to work every day to ensure that all people have access to the sexual and reproductive health care they need and deserve without barriers.

I am grateful and proud to be in this challenging time together with you.

In solidarity,

Emily Nicklin

Board Chair

PROTECTING ACCESS

18

FINANCIAL ACTIVITIES

Dear Friends,

This was a year of historic and unprecedented change.

On June 24, 2022, the U.S. Supreme Court overturned *Roe v. Wade*, eliminating the constitutional right to abortion. **In the blink of an eye, 50 years of settled law was revoked and the rights of Americans rolled back by half a century.** The result has been dozens of states moving to ban abortion and millions of people stranded in their home states without access to this essential form of health care. Despite the demise of *Roe*, I am proud to say that Illinois remains a haven state, and the work of Planned Parenthood of Illinois (PPIL) is more important than ever. Our job is to ensure that those who are forced to seek care outside of their home state are welcomed in Illinois, no matter what.

As attacks against reproductive justice and bodily autonomy increased across the country, our leadership team was prepared to open our doors to thousands in anticipation of this fateful day. **With your support, we expanded our infrastructure and scaled-up operations to prepare to meet the challenges ahead in a post-Roe world.** Over the past year, we strengthened our partnership with two critical abortion funds in our region, Chicago Abortion Fund and Midwest Access Coalition. PPIL's patient navigation program combined with these partnerships enhance our ability to provide individualized, wrap-around support to abortion and gender-affirming care patients. In addition, we developed regional partnerships and innovative care models with our own Planned Parenthood affiliates in "banned" states to ensure that PPIL can meet the post-*Roe* surge of patients now traveling to Illinois for care. Working together, we have increased access to abortion for thousands of patients left stranded in their home states by the Supreme Court's decision.

Now more than ever, your unwavering dedication to PPIL has enabled us to not only protect but increase access to equitable care in Illinois. As we began operations to prepare our health centers for the coming post-*Roe* surge of out-of-state patients, we proactively began by expanding several PPIL Health Centers including our Champaign Health Center which now provides in-clinic abortion services to patients in central Illinois. We also relocated our downtown Loop Health Center to a larger space located closer to public transportation. Thanks to you, PPIL is well-equipped to meet the challenges ahead.

Today, PPIL stands ready to continue our commitment to meeting the needs of Illinois residents while we open our doors to tens of thousands of out-of-state abortion and gender affirming care patients. I cannot thank you enough for your partnership and support. **This isn't our first fight, and it won't be our last. Together, we are building a brighter future for those who need us most in Illinois!**

With gratitude,

A handwritten signature in black ink that reads "Jennifer Welch". The signature is fluid and cursive.

ELIMINATING BARRIERS TO CARE

Health equity is central to PPIL's mission. As the largest provider of sexual and reproductive health care services in Illinois, PPIL is committed to making access possible for all individuals no matter their race, ethnicity, sexual orientation, age, income, or zip code. While many states are increasing restrictions and bans on abortion and gender affirming care, PPIL has taken proactive measures to protect and expand access to essential health care in Illinois. These challenging times demand that PPIL rise to the occasion and provide safe, legal access to reproductive health care for all who need it—no matter where they live.

Abortion By Mail

One of the ways PPIL is making abortion care more accessible is by offering abortion pills through the mail to eligible patients. In

December 2021, the U.S. Food and Drug Administration (FDA) permanently removed in-person dispensing requirements for mifepristone (also known as the abortion pill), and PPIL providers began prescribing the pill and dispensing it through a mail-order pharmacy. The abortion pill is a safe and effective way of ending an early pregnancy—up to 11 weeks. To qualify for the abortion pill-by-mail, patients must be 10 weeks pregnant or less; they must have an Illinois address; and they must be physically present in Illinois at the time of their telehealth appointment. Through a virtual visit, PPIL patients have access to their medication abortion consultation via the secure video-conferencing platform, InTouch, which connects patients with their PPIL clinician virtually. This way patients receive the sexual and reproductive health care they need from where ever they are comfortable.

Collaborating Across State Lines

To manage the huge post-Roe influx of patients, PPIL has developed a close collaboration and partnership with Planned Parenthood of Wisconsin (PPWI). This innovative care model has cross-trained and

cross-credentialed staff from PPWI to travel to our Waukegan Health Center each week to provide in-clinic abortion care. On Friday, June 24th, the moment *Roe* was overturned Wisconsin doctors were forced to immediately stop providing care. Patients who were under sedation awoke to the news of a post-*Roe* world and were forced to travel to another state to continue their care. Thanks to the innovative partnership PPIL formed with PPWI, these patients were able to continue receiving care at PPIL health centers from PPWI staff they know and trust. This unique partnership has resulted in expanded access for growing numbers of patients traveling to Illinois for care.

A Holistic Approach to Sexual and Reproductive Health Care

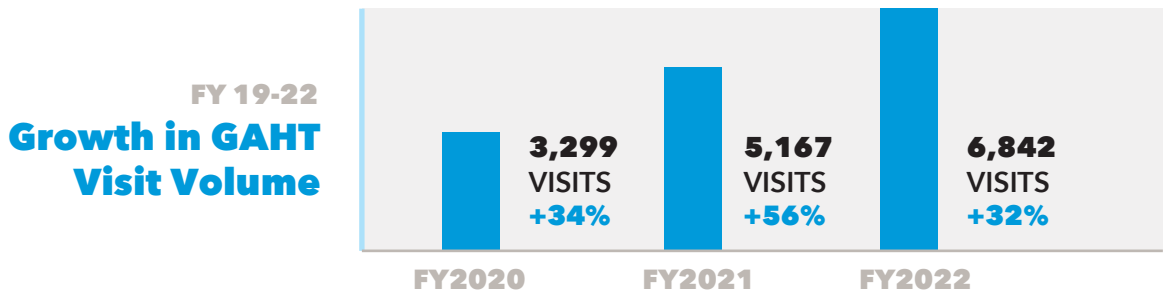

To keep pace with the expected surge of post-Roe patients coming to Illinois, PPIL has increased the number of Behavior Health Clinicians (BHC) scheduled on abortion service days to offer additional support.

Our BHC services are offered to all PPIL patients; however, out-of-state patients often have a greater need for emotional and logistical support. Increased onsite BHC support allow these patients to access resources and receive the appropriate connections/referrals for ongoing care. Having the ability to speak with a BHC in person means that patients' needs are addressed in real-time. With a continued increase in out-of-state abortion and gender-affirming care patients expected, the need for behavioral health support will nearly double in the coming months.

GENDER- AFFIRMING HORMONE THERAPY

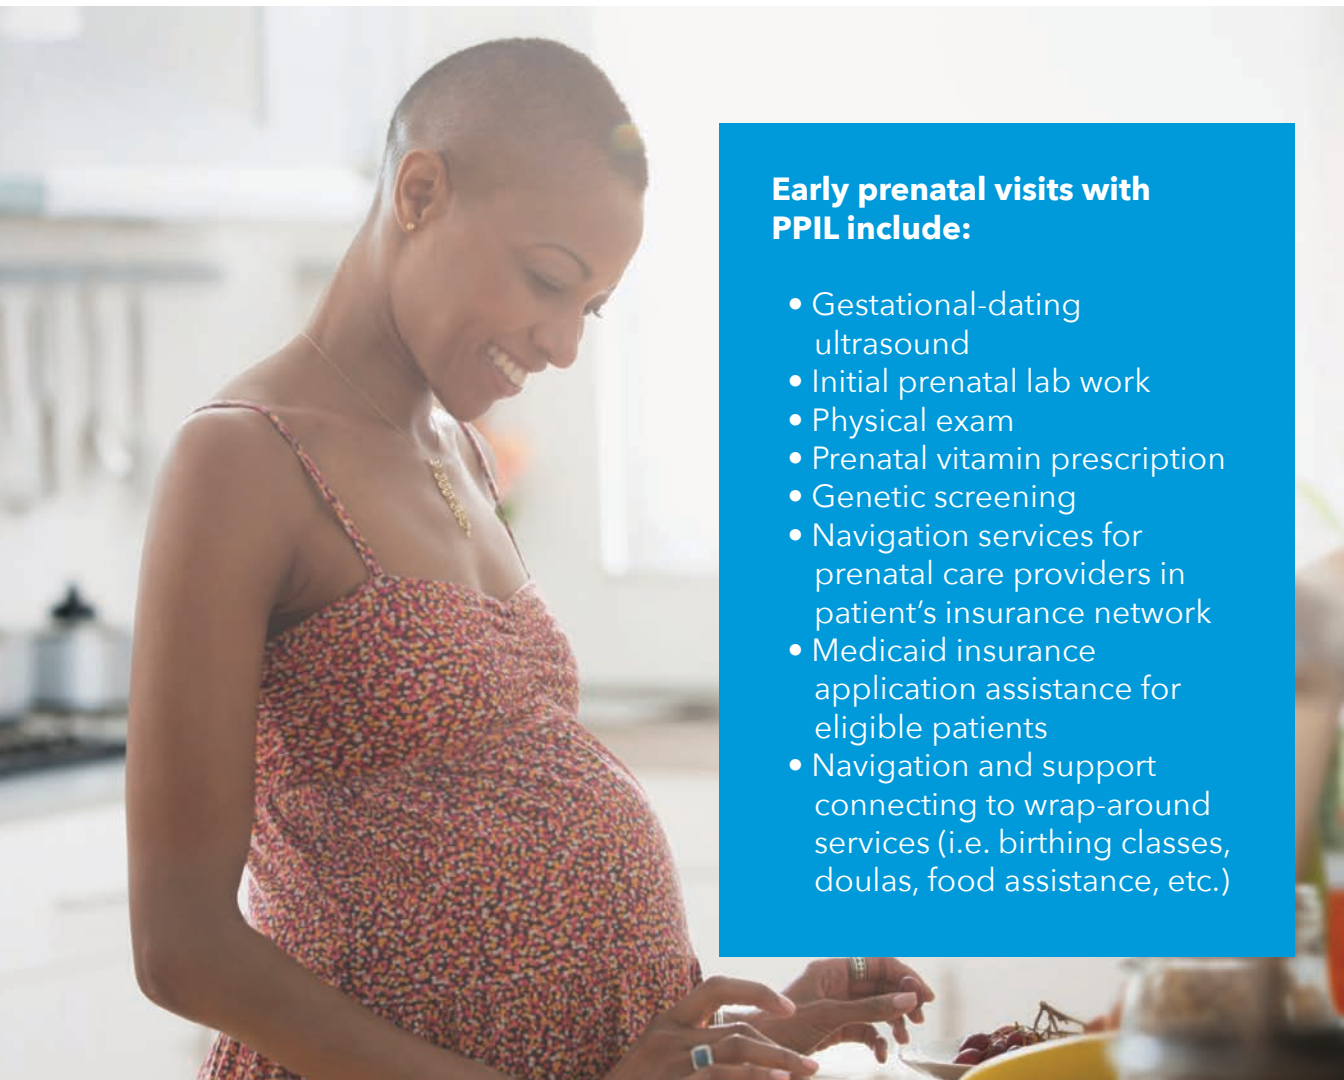

The Gender-Affirming Hormone Therapy (GAHT) program has grown rapidly since PPIL began providing GAHT in 2016. In fact, GAHT visits more than doubled from FY20 to FY22, growing faster than any other service at PPIL; especially in Central Illinois where there are extremely limited options for this essential care.

Gender-affirming care requires a life-long continuum of social, psychological, behavioral, and medical care. PPIL's Transgender and Gender Non-Conforming specialists and GAHT program are led by a multidisciplinary team situated at the intersection of clinical care and social support. They provide a patient-centered, holistic approach to health care to support each patient's physical, emotional, and psychological wellness. Our GHAT program also offers a wide range of resources and assists patients with locating transgender and non-conforming gender-friendly providers who specialize in cardiology, primary care, urology, plastic surgery, dermatology, and endocrinology.

BRIDGES TO PRENATAL CARE PROGRAM

The Bridges to Prenatal Care pilot program began in April 2022 at PPIL's Englewood, Austin, Roseland, and Flossmoor Health Centers. Internal and external research shows a growing, unmet need for prenatal services in these areas of Illinois which is why PPIL created the Bridges to Prenatal Care program. New research from the American Public Health Association finds that Black women and Black birthing people are over three times more likely to die during pregnancy and postpartum than White women and White birthing people. By providing initial prenatal care to patients seeking to continue their pregnancies, PPIL's Bridges program seeks to reduce disparities in maternal morbidity and mortality, thereby improving health outcomes for Black women and Black birthing people. Once PPIL provides patients with initial prenatal care, the program connects patients to trusted community OBGYNs, midwives, and other full-service prenatal care providers for the duration of their pregnancy and delivery.

Early prenatal visits with PPIL include:

- Gestational-dating ultrasound
- Initial prenatal lab work
- Physical exam
- Prenatal vitamin prescription
- Genetic screening
- Navigation services for prenatal care providers in patient's insurance network
- Medicaid insurance application assistance for eligible patients
- Navigation and support connecting to wrap-around services (i.e. birthing classes, doulas, food assistance, etc.)

“

37 year old patient undergoing her second pregnancy and desired a midwife of color, who mirrored her and would understand her. The patient was not certain she could get a midwife due to her health history of gestational diabetes, elevated blood pressure, and being over 35. A PPIL clinician informed her that she knew where she could go to find a midwife. **Once the patient and midwife were connected, the patient stated that she was elated that the midwife was her provider. The midwife delivered a healthy baby boy!**

Without the knowledge and connections of PPIL Bridges to Prenatal Care team assisting the patients in the vast unknown of what is available to them, this patient may have had a very different pregnancy, delivery, and overall outcome.

LESLIE D. MOORE-HICKS
BRIDGES TO PRENATAL CARE PROGRAM DIRECTOR

NAVIGATING A POST-ROE LANDSCAPE

Across the country, restrictions and bans are being placed on abortion, making it harder for people to access essential reproductive health care. When patients are unable to access care where they live, it delays services and pushes them further into pregnancy, potentially affecting the type of abortion they can receive. Patients traveling from out-of-state face additional financial burdens such as taking time off work, raising funds for lodging and meals, or securing child care. These “practical” expenses are often significant and overwhelming obstacles. PPIL’s expanded team of Patient Navigators are ready and available to support patients with the challenges they may face.

A photo of our navigation team with the PP Wisconsin navigators from a retreat at the Epic Headquarters in Madison, WI in September 2022. Pictured left to right: Chaquita (PPWI), Mara, Heather, Zoie (PPWI), Hildegard

Patient Heroes

When a patient requires urgent support, they are connected to one of PPIL’s navigators for assistance. These heroes determine how to best meet each patient’s most immediate needs whether that means booking a hotel room for the night, arranging transportation to and from a PPIL health center, providing financial support for meals or gas, or helping with childcare needs. To ensure patients can easily access the necessary funding and practical support, PPIL’s navigators work in close collaboration with our call center staff and behavioral health clinicians, as well as our external partners at Chicago Abortion Fund, Midwest Access Coalition, Hoosier Abortion Fund, Freedom Fund of Wisconsin, and Abortion Fund of Ohio. The navigation team provides patients with a resource page on the PPIL website, which allows patients to easily and independently explore abortion funding options available to them throughout the Midwest region.

Providing Care in Illinois—and Beyond

PPIL is committed to serving all patients and utilizes universal screening procedures to ensure each patient, no matter where they live, is offered the assistance they need. PPIL provides resources and serves patients who are facing increased barriers to care in under-served geographical areas. By focusing strategically on specific health centers—PPIL seeks to equitably maximize overall care, ensuring all patients can access the care they need.

In FY22, PPIL’s navigators worked side-by-side with other PP affiliates to support patients from:

Wisconsin • Ohio • Tennessee • Northern Mississippi • Missouri • Texas • Florida
And patients from over 27 other states

YEAR IN REVIEW

**AUG
2021**

Planned Parenthood Illinois Action (PPIA) aided in the achievement of the Keeping Youth Safe and Healthy bill (KYSHA). This law equips young people with the information and tools they need to be safe and establish healthy relationships. This new law supports responsible and informed decision-making about a young person's health and well-being.

**SEP
2021**

On September 30, PPIL donors gathered for the 7th annual President's Circle luncheon. Jennifer Welch and Alexis McGill Johnson, President and CEO of Planned Parenthood Federation of America (PPFA), discussed the local and national landscape of sexual and reproductive health care and rights as well as Illinois' critical role in an increasingly hostile region. They shared how, together, we will continue to break down barriers to care, advance health equity initiatives, build effective partnerships and ensure our doors stay open.

**JAN
2022**

On January 27, PPIA and Planned Parenthood Illinois Action PAC hosted the virtual Roe v. Wade Anniversary Event, which raised over \$250,000. The program featured an interview with Brigid Leahy, Vice President of PPIA, and Illinois Governor JB Pritzker who discussed the critical role Illinois will play if Roe is overturned. The evening included powerful remarks from PPIA and Planned Parenthood Action Fund (PPAF) leadership, elected officials, and honorees about the importance of electing pro-choice champions in the 2022 critical election.

**MAR
2022**

On March 23, PPIL announced a \$17 million gift from philanthropist MacKenzie Scott in support of our RESOLVE Campaign. Her extraordinary gift is a testament to PPIL's mission to advance health equity and provide compassionate care to all who need it.

**APR
2022**

In April, PPIL launched the Bridges to Prenatal Care program which provides a timely start to prenatal care by connecting patients to trusted community maternal care providers for the duration of their pregnancy and delivery.

**MAY
2022**

On May 12, PPIL supporters came together in-person and online for the 2022 Annual Celebration, and raised over \$520,000 to support PPIL's mission of care, no matter what. Carolyn Moon, former PPIL board member, was presented with the Champion of Care Award for her dedication, leadership, and passionate support of PPIL. The audience was inspired when PPIL escorts who shared their experiences ensuring patients feel safe and supported when arriving at PPIL health centers across the state.

**JUN
2022**

On June 24, the United States Supreme Court released its decision in *Dobbs v. Jackson Women's Health Organization* which overturned *Roe v. Wade* and ended the constitutional right to abortion in America. The ruling overturned 50 years of settled law and prompted over half of all states to begin severely restricting and/or banning this essential form of health care in the U.S.

THE LEADER FOR SEX EDUCATION IN ILLINOIS

In 2022, PPIL’s education team returned to in-person learning after nearly two years of virtual sessions during the pandemic. Educators re-entered partner schools with a new and expansive curriculum that included 16 new lessons for 7th and 8th-grade students. **PPIL’s evidence-based, inclusive, sex education curriculum addresses a variety of sexual and reproductive health topics including: hygiene, puberty, reproductive anatomy, STIs, contraception, healthy relationships and consent, gender and sexuality, refusal skills, and condom negotiation.** Education sessions are tailored to be age-appropriate, so topics such as puberty are facilitated for youth in grades 5-9, and sessions about contraception are intended for youth in grades 7-12.

In addition to serving as the exclusive sex-education partner for Chicago Public Schools (CPS), PPIL works with a broad group of organizations including churches, civic and community groups, and colleges and universities. PPIL educators cover a broad range of topics related to sex and sexuality, exploring values and beliefs about those topics, and teaching the skills needed to navigate relationships and manage one’s own sexual and reproductive health. Each lesson is 40 to 60 minutes in length, and bilingual staff provide educational sessions in Spanish. In FY22, PPIL’s education programs reached more than 5,000 young people.

GEN ACTION

On May 14, 2022, the University of Illinois Urbana-Champaign (UIUC) chapter of PPIL Generation Action (GenAction) held a benefit concert at the Canopy Club, **Defend Roe: Not If, But When**. Through student performances, refreshments, merchandise, and a raffle, the UIUC Chapter raised \$800 to benefit PPIL partner, Midwest Access Coalition (MAC).

In 2022, more than 500 GenAction students:

- **Marched** in rallies supporting reproductive rights
- **Educated** their peers about *Roe v. Wade*, sexual health, and other topics
- **Fundraised** for abortion access in the Midwest

PROTECTING ACCESS FOR ALL!

TAKING ACTION IN ILLINOIS

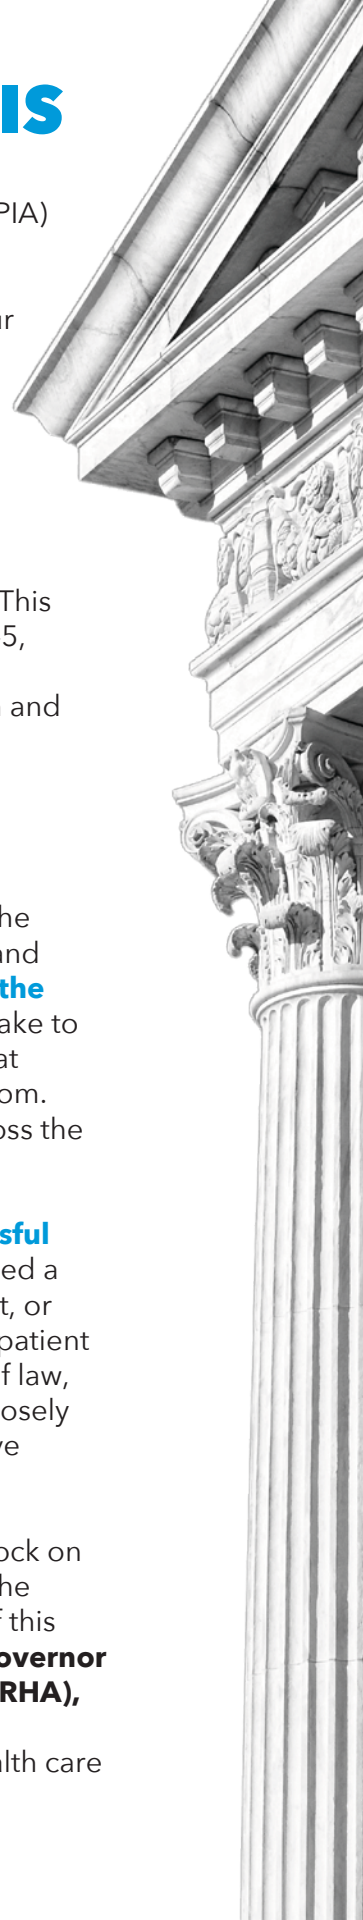

The policy team for PPIL and Planned Parenthood Illinois Action (PPIA) championed key pieces of legislation in FY22 and mobilized volunteers to help ensure that Illinois remains a haven state for abortion care. To ensure the enactment of these important bills, our policy team in Springfield keeps working even after a bill becomes law. **Some highlights from Springfield include:**

In August 2021, the Illinois General Assembly and Governor Pritzker signed the landmark Keep Youth Safe and Healthy Act (KYSHA). PPIA actively worked in support of this bill to ensure that all Illinois students receive the comprehensive, inclusive, and age-appropriate instruction they need and deserve. This new law creates personal health and safety standards for grades K-5, and updates and expands comprehensive sexual health education standards for grades 6-12. By giving young people the information and tools they need to be safe, this new law supports responsible and informed decision-making about their health and well-being. This legislation ensures that all Illinois school-aged children will receive proper personal health and safety education.

On May 3, 2022 the media published a leaked draft opinion from the United States Supreme Court (SCOTUS) overturning *Roe v. Wade* and ending the nation's constitutional right to abortion. **On the day of the draft leak, PPIL's policy team quickly mobilized supporters** to take to the streets and rally for abortion justice. PPIL supporters gathered at federal buildings across Illinois and demanded reproductive freedom. These rapid response rallies engaged nearly 8,000 supporters across the state.

In early June, decades of PPIA's work culminated in the successful repeal of the Parental Notice of Abortion Act (PNA). PNA required a health care provider to notify a parent, legal guardian, grandparent, or step-parent at least 48 hours prior to performing an abortion for a patient under the age of 18-years-old. The FIRST state to repeal this type of law, Illinois' law went into effect on June 1, 2022. PPIA's team worked closely with state legislators and members from the statewide Reproductive Health and Access Coalition to achieve this victory.

On June 24, SCOTUS overturned *Roe v. Wade*, turning back the clock on reproductive rights by half a century and prompting states across the country to begin implementing bans on abortion. In anticipation of this event, **In 2019, PPIA and other Illinois champions stood with Governor JB Pritzker as he signed into law the Reproductive Health Act (RHA),** cementing Illinois as a haven. The RHA law establishes abortion, contraception, maternity care, and other forms of reproductive health care as fundamental rights in Illinois.

STATEMENT OF ACTIVITIES

JULY 1, 2021-JUNE 30, 2022

FY22 REVENUE

Patient care income	\$20,960,625
Contributions	\$35,160,888
Government grant income	\$3,580,246
Other revenue including interest and gains	\$1,115,879
Total Revenue	\$60,817,638

FY22 EXPENSES

Patient services, education, and advocacy	\$31,491,306
Management, administration, and quality assurance	\$9,392,699
Fundraising and development	\$1,530,626
Total Expenses	\$42,414,631
Excess of revenue over expenses	\$18,403,007

This presentation describes the consolidated financial statements of Planned Parenthood of Illinois, a 501(c)3 non-profit organization that does not engage in electoral activity as well as of Planned Parenthood Illinois Action, a 501(c)4 non-profit organization that engages in permitted electoral and political activity, and Planned Parenthood Illinois Action Political Action Committee, a nonpartisan political action committee committed to supporting pro-choice, pro-family planning candidates for office.
